

## EASY AUDIT (eAUDIT)

### MAKING AUDITS EASIER THAN EVER BEFORE!

Easy Audit (eAudit) allows your audit team to streamline the entire audit process by using the best in technology to reduce audit costs and time spent in audit activities.

eAudit is designed to increase the efficiency and productivity of the audit process, including risk assessment, scheduling, planning, execution, review, and report generation.

### MONITOR PERFORMANCE WITH ROBUST REPORTING & DASHBOARDS

Get visibility in all the managed work in your enterprise using business intelligence. The powerful eAudit dashboards help the audit committee and management executives get a bird's eye view on all key audit statistics to aid in better management decisions and insight.

### PLAN, SCHEDULE AND MANAGE AUDITS

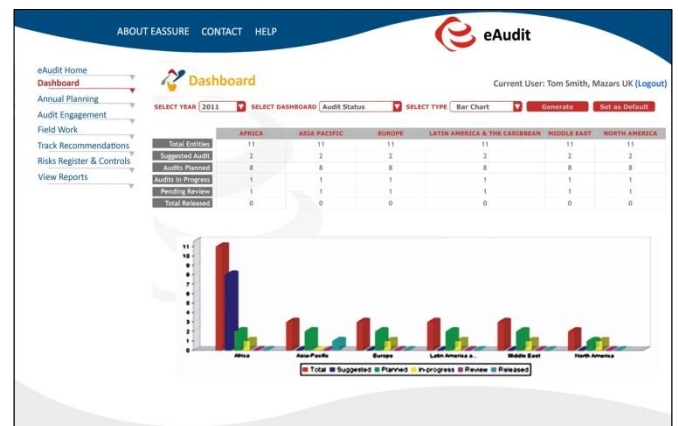

eAudit helps audit management staff to plan and forecast annual audit assignments. Executives can review and modify the plans according to need. eAudit comes with the capability to suggest audit schedules based on the entity's previous audit results and risk assessment.

### WORK SMART WITH eAUDIT FIELDWORK

Work programs belonging to a wide range of industries have been incorporated into eAudit (e.g. SOX, IFAC, IT Audit and many more). Save documentation time by using eAudit's report generation features.
